## My Mom

My mom was a beautiful soul. She could light up the room with her big brown eyes and one of the most beautiful smiles I ever saw. She was one to have a big heart and loved hard. My mom struggled in her life-time but she never let it bring her down. She danced to her own tune and that was just the way it was. She was very intelligent and became a jack of all trades. My mom was the best fry bread maker of the Rosebud. She was a wild and crazy woman and we all seen it. She was a hard and tough woman who protected her own. My mom was never embarrassed of who she was. She did not live rich but she carried herself rich. She was the one you went to at one time in your life for help. My mom made everything from scratch. She lived her life to the best of what she wanted. She drove us all crazy with her crazy moments. My mom in the end became tired and could not fight anymore. She left a little too soon and left us with a broken heart. Do no doubt our crazy little woman though, she will be there watching over us and helping us through our troubles. Sharon Kay Shaw is her name.
